Company Introduction

In 2019, " Agape" has developed new advanced LCD controller, and developing WIFI controller with DIY WEB program for craft beer lovers.

In 2018, " Agape" was registered and three utility patents and one design patent were applied for beer brewer, and built " Craft Beer Lab" to make craft beer testing, and supply one-stop beer brewing products and craft beer brewing lesson for foreign and domestic customers.

In 2017, set up " QA LAB" is to analyze issues and provide solutions, and aimed to control the reject rate at 0%. "Agape R&D And Manufacture Center" is to serve more ODM projects to meet our customer's custom-made needs with industry design, toolings development and manufacturing, which was to work with senior engineer team of Australia company to build top quality ODM urn and UK company to build the Bulldog master brewer.

In 2016, "Zhongshan Agape Electrical Appliances Manufacture Co., Ltd." was registered in Zhongshan, China. Set up " Homebrew Equipment Division" was to develop and manufacture micro breweries, brew pot, controller, sparger, hops spider, mash paddle, spiral chiller, conical fermenter etc. Our beer products have exported to Germany,UK, Sweden, Russia, Australia, Brazil, USA etc.

In 2014, The CEO of "AURON GROUP GUANGRONG FACTORY" financed to the founder of "AGAPE COMPANY", and set up "Commercial Beverage Appliances Division" and joint venture with "MANNENG FACTORY" to manufacture and export commercial water boiler, coffee urn, tea boiler etc. " AGAPE" brand was registered.

In 2013, "AGAPE COMPANY" was registered in Hongkong. Focusing on export and import business, and financial flow.

Advantages of SW models (2020 launch）

◆ Built-in 220V/110V magnetic pump
◆ Sight glass on the brewer body is to see the brewing wort volume
◆ Optional distillation SS lid for whisky making
◆ Patents for anti over-burning, sparging plate & telescoping tube, appearance design

Advantages of SP models

◆ Built-out 220V/110V pump with steel box for easy stirring
◆ Outer stainless steel pipe for circulation
◆ Optional distillation SS lid for whisky making
◆ Patents for anti over-burning, sparging plate & telescoping tube, appearance design

NOTE: SP = ADVANCED MODEL WITH BUILT-OUT PUMP; SW= ADVANCED MODEL WITH BUILT-IN PUMP

What will be delivered

◆ 1 x boiler with circulation pump
◆ 1 x sieve insert
◆ 1 x overflow piece
◆ 1 x grain container
◆ 1 x handle for the grain container
◆ 1 x glass lid
◆ 1 x spiral chiller (if ordered)
◆ English-language operating instructions

Replaceable element
for 60/70/80L brewer

Beer Brewer Common Top Features

Your own craft beer: complete set for easy mashing at home

Complete set: mash kettle including circulating pump system and grain bucket with sieve inserts

Easy to use: automatic LCD controller with 9 DIY recipes, 11 mashing steps, hops alert, temp calibration setting etc.
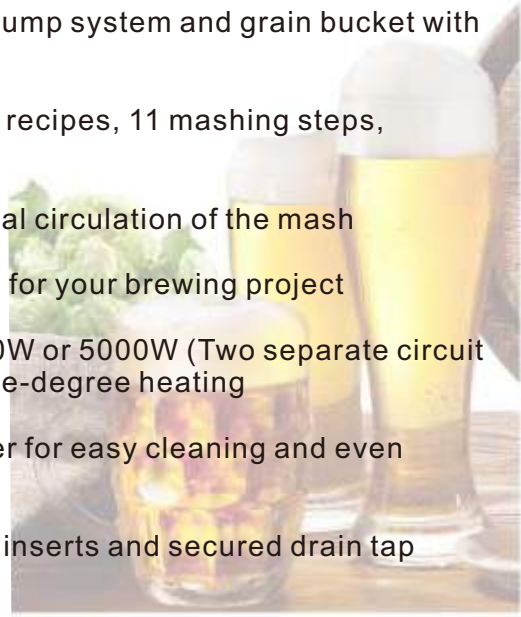

Uniform heating: MashFlow technology for vertical circulation of the mash

7 sizes: 20L/35L/40L/50L/60L/70L/80L - suitable for your brewing project

Powerful mash kettle: 100W-2500W/100W~3300W or 5000W (Two separate circuit and plugs) heating element for fast, precise to-the-degree heating

Hygienic and taste-neutral: stainless steel brewer for easy cleaning and even temperature distribution

Easy refilling: removable grain bucket with sieve inserts and secured drain tap

Advantages of SE models

- ◆ **12V or 220V/110V built-out pump without steel box for easy stirring**
- ◆ **Outer silicone hose with V-shape pipe for circulation**
- ◆ **Optional distillation SS lid for whisky making**
- ◆ **Patents for sparging plate & telescoping tube**
- ◆ **Economic model**

NOTE: SE = BASIC MODEL WITH EXTERNAL PUMP; SW= ADVANCED MODEL WITH BUILT-IN PUMP

What will be delivered

◆ 1 x boiler with circulation pump
◆ 1 x sieve insert
◆ 1 x overflow piece
◆ 1 x grain container
◆ 1 x handle for the grain container
◆ 1 x glass lid
◆ 1 x spiral chiller (if ordered)
◆ English-language operating instructions

Common Features:

◆ Waterproof and detachable LCD controller

◆ Lid made of tempered glass

◆ Manual or automatic control of the mashing process

◆ 11 programmable mashing steps

◆ Temperature, time and power adjustable when brewing

◆ Level scale in the brewer interior

◆ Display of the current mashing step

◆ Drain tap with bazzoka filter

◆ Removable grain container for easy removal of the grain

◆ Quick coupling system of the pump hose

◆ Includes 1 sieve insert for filtering the mash

◆ Switch on the front of the device

◆ All metal parts made of 304 stainless steel

◆ Power supply: 220~240V or 110V~120V / 50-60Hz

Advantages of Luxury Brewer

◆ Double wall construction keeps heat longer
◆ Cooling touching body
◆ Bulldog master brewer with big LCD touch screen controller
◆ Agape structures and design patents
◆ Available sizes: 35L(Beer 25L),20L(Beer 10L)
◆ Custom sizes:
   40L(Beer 30L),
   50L(Beer 35-40L),
   60L(Beer 50L)

Features

◆ Manual control of the mashing process
◆ Stepless temperature setting: 30 to 110 °C
◆ Actural Volume of the boiler: 16/18/30 liters (liquid only)
◆ Level scale in the boiler interior
◆ Drain tap with lever lock
◆ Overheating protection with auto-shutdown
◆ Lid made of stainless steel
◆ Hidden heating element for easy cleaning
◆ Switch on the front of the device
◆ Internal boiler wall made of 304 stainless steel
◆ Shell outer wall made of 201 stainless steel
◆ Power supply: 1600W/2500W/220-240V ~ / 50-60Hz or 110V~120V/1000W
